

Dear Subscribers/ Vendors

Greetings of the day !

Due to Lockdown most of Institutes and Vendors were not able to receive our regular communications, we would like to inform you that we have been remote working even during lockdown.

Our offices are fully operational and we have all our **250+ Journals Jan-Apr & Jan-July (1<sup>st</sup> Issues) 2021 Print & Online Issues ready for dispatched/Under dispatch.** Those who have placed their orders to different **Vendors and have still not received their Journals**, should immediately contact their vendors to get the current status of Journals.

We are sending all Journals through Registered Indian Post which is trackable, but due to lockdown a post which normally should reach 3-7 days is currently taking 15-20 days in delivery. So, you are requested to take necessary action in order to ensure that your orders reach you on time.

Currently UGC and AICTE are also conducting **virtual Inspection/ assessment of Institutions** for next academic session, we are ready to provide you both **Printed and Online Access of Year 2021** and previous year Journals too on time.

CELNET can also provide eLearning tools and content to Institutions in getting them **eLearning ready**, we can provide ready infrastructure and access to various **short and long term courses using LMS** for all your Graduate and Post Graduate Students. Please ask for more details how we can assist you in reaching out to your students through eLearning.

Thanks & Regards

**Asan Kumar**
